6-12 mo	4-4.5	19	3-3.5	4.5"	11.6
12-18 mo	5-5.5	20	4-4.5	4.75"	12.4
18-24 mo	5.5-6	21	4.5-5	5.25"	13.3
24-36 mo	7-8	22	5.5-6	5.75"	14.2

### Finding the Correct Size

1. Cut along the dotted line at the bottom of the skate board measuring chart.
2. Place the chart on a flat surface with the the cut end against a wall.
3. Place your child's heel against the wall. Be sure their little toes aren't curled.
4. Draw a line in front of your child's foot. Be sure to measure both feet and choose the size that is larger. Choose the size that leaves a bit of space, for growth and socks. (approx. 1/4").
